HUMMINGBIRD
SMALL-DIAPHRAGM CONDENSER MICROPHONE

PREMIUM SOUND. HEAD-TURNING PERFORMANCE.

Hummingbird is a versatile, precision-engineered Cardioid small-diaphragm microphone that unlocks the tonal nuances of your instruments so you can capture the best recordings possible. With a 180-degree rotating head, Hummingbird fits into tight spaces and can nimbly change positions where others can’t.

Featuring a precisely tuned diaphragm and extended frequency response, Hummingbird is the perfect solution for drum overheads, acoustic guitar, piano, percussion, or other instruments with fast transients and rich overtones.

“sounds fantastic and feels expensive.”
